

Harbor Enterprises LLC is a SBA 8(a) and HUBZone certified firm specializing in providing a range of construction and facilities support services to the federal government. We have completed over \$100 million in contracts on multiple continents. We have a \$10 million bonding capacity and self-perform a majority of our work with our own employees and equipment. We carry commercial contracting licenses in 7 states and own and operate our 80,000 sq. ft. automated steel fabrication facility. Our proven approach to project management enables us to meet and exceed contractual requirements on a consistent basis, which has led to our superior past performance ratings on projects executed to date.

Value Proposition

Results-oriented small business that leverages new technologies and efficient processes to deliver construction and manufacturing projects on time, on budget and in accordance with applicable quality metrics.

Our geographic footprint across several states allows us to quickly respond to clients' needs and our broad scope of past projects allow us to meet a variety of our client needs.

Our risk management policies enable us to proactively identify issues or problems before they negatively impact our contract performance.
